## THAICOM Maintains Quality Service For All Broadcast Channels and Clients

Nonthaburi, 21 November, 2013. **Mr. Paiboon Panuwattanawong, Chief Technical Officer of Thaicom Public Company Limited** stated that "Thaicom, as a provider of satellite telecommunications services, continually monitors the signal quality of all television channels and other communications channels carried on the Company's satellites. We maintain internationally accepted standards for all our services, and the signals of all stations being broadcast via our satellite are operating at maximum quality and efficiency."

The Company consistently monitors its broadcast signals and their quality. The Company also has on standby the necessary equipment and personnel to resolve any signal or technical problems that may arise.

Thaicom PLC has been providing quality broadcast services to both domestic and international clients for more than 22 years. The Company will continue to provide the best service possible, keeping in mind the needs and benefits of the people of Thailand, while also being engaged in the development of new technologies that will benefit the nation socially, financially and technologically.

### **About Thaicom Public Company Limited**

*Thaicom Public Company Limited, a leading satellite communications provider in Asia Pacific, was granted a 30-year Domestic Communication Satellite Operating Agreement by the Ministry of Transport and Communications (currently transferred to the Ministry of Information and Communication Technology (MICT)). The company was the first in the region to offer Ku-band and Digital Direct-to-Home broadcasting services, and was the world's first operator to employ MPEG-2 DVB compression since 1994. THAICOM also developed and launched the world's first Internet Protocol (IP) satellite, IPSTAR. At present, IPSTAR offers broadband and mobile backhaul services to operators and service providers in 13 countries across Asia Pacific. For more information visit [www.thaicom.net](http://www.thaicom.net) and [www.ipstar.com](http://www.ipstar.com).*
