TC-CP 007/2014

27 February 2014

Subject: Notification of the additional information of Thaicom 7 Satellite Project.

To The President
The Stock Exchange of Thailand

Reference: Thaicom Public Company Limited's letter reference no. TC-CP 051/2554 dated 15 December 2012

According to notification of Thaicom Public Company Limited (the "Company") no. TC-CP 051/2554 dated 15 December 2012 to the Stock Exchange of Thailand (SET) regarding Corporation Agreement with Asia Satellite Telecommunications Co., Ltd (AsiaSat).

Referred to the above information, the Company had disclosed information of Thaicom 7 satellite to SET that the Company was the owner of transponders totally not exceeding 14 transponders and the satellite had the life expectancy of approximately 15 years. According to the latest information from satellite manufacturer obtained from AsiaSat, the life expectancy of Thaicom 7 satellite will be approximately 22.1 Years.

Hence, the Company would hereby like to further inform the additional information of Thaicom 7 satellite that the Company will be the owner of 14 transponders and the satellite will have its life expectancy increased from 15 years to approximately 22.1 years. However, the telecommunication license granted by Office of National Broadcasting and Telecommunication Commission (NBTC) to the Company in the year 2012 has a period of 20 years. Whereby, at present,, the remaining period of the mentioned license is approximately 18 years. Therefore, at this stage, the Company shall be able to operate Thaicom 7 Satellite up to the remaining period of the license as previous addressed.

Please be informed accordingly.

Yours faithfully,

-Signed-
(Mr. Vuthi Asvasermcharoen)
Chief Financial Officer
THAICOM Public Company Limited
