Thaicom hosted the Customer Seminar To Support the Must Carry Rule

Thaicom Public Company Limited supports Digital TV industry by holding the Customer Seminar for Licensed Digital TV operators called "*General Broadcasting Service by Satellite Provider or Must Carry by ThaiCom Satellite*". The objective of the seminar is regarding the awareness of the direction of Thailand digital TV and Broadcast industry together with the information of Must Carry by Thaicom. Nowadays, Thaicom is ready for a full range of services for licensed operators. This is consistent with the NBTC's policy (National Broadcasting and Telecommunications Commission). People all over Thailand can continue watching the broadcasting programs by no need to change the set top box. Moreover it is the way to enhance Thailand broadcast industry.

Suphajee Suthumpun, Chairman of the Executive Committee and CEO, Thaicom Public Company Limited (sixth from right, front roll) extended a warm welcome to the customer and narrated a topic of "**Thailand digital TV - Keep walking with Thaicom**", workshop for customer and the demonstration of 4K-UHD Broadcasting Service by Thaicom. The seminar recently held at **Pullman Bangkok King Power**.

About Thaicom

Thaicom Public Company Limited, a leading Asian satellite operator, was established in 1991 with unique proposition in providing integrated solutions for satellite broadcast and broadband. The Company houses high profiled engineering teams to provide leading-edge innovative solutions on telecommunication and satellite that answer every need with a full spectrum of services. Until now, Thaicom has launched six satellites into the orbit; three satellites are in operations. Thaicom 5 and Thaicom 6 are a "Hot Bird" broadcasting satellite for Thailand and SE Asia, boarding more than 600 TV channels, coverage over Thailand, SE Asia and Africa (by the name "Aficom-1"). Thaicom 4 (IPSTAR) is the world's first broadband satellite and is providing broadband services to 14 countries across Asia-Pacific region. With the unique performance and technology of Thaicom 4, the Company has provided its solutions to many countries in the region to enable the broadband connectivity everywhere, also to recover communication networks at the time of disasters; such as in Japan, China and New Zealand. And further in 2014, Thaicom 7 will be launched to expand Thaicom's servicing capacity and footprint in the regions.

Thaicom PLC is listed on the Stock Exchange of Thailand (SET) under the trade symbol "THCOM".

What is Thaicom 6?

Thaicom 6, a conventional satellite which will be co-located with THAICOM-5 at 78.5 degrees East ("Hot Bird" position), and carry Ku- and C-band payload. The Ku-band payload will be comprised of 9 transponders (TPE) providing services to the Southeast Asia (mainland). The C-band payload will feature 24 C-band transponders (TPE) providing services via the satellite's regional beam to Southeast Asia and Africa. Thaicom 6 will expand the company's business by providing telecommunication and broadcast services to more customers in those areas and maintaining THAICOM's "Hot Bird" position in the region.
