the name "Africom-1"). Thaicom 4 (IPSTAR) is the world's first broadband satellite and is providing broadband services to 14 countries across Asia-Pacific region. With the unique performance and technology of Thaicom 4, the Company has provided its solutions to many countries in the region to enable the broadband connectivity everywhere, also to recover communication networks at the time of disasters.

In 2014, THAICOM 7 launched in addition to existing satellite while THAICOM 8 has been under the production process which will finally also be launched to the "Hot Bird", 78.5 degrees EAST around the first half of 2016. The new bird will increase more transponders that serve the countries in Asia and Africa.

Thaicom PLC is listed on the Stock Exchange of Thailand (SET) under the trade symbol "THCOM".

About THAICOM 7

THAICOM 7 built by Orbital Sciences Corporation of U.S.A. There are 14 C-Band transponders in total, covering South Asia, Southeast Asia, Australia and New Zealand. THAICOM 7 will be launched into the 120 degrees East in September 2014 conveyed by Space Exploration Technologies Corporation (SPACE X)'s Falcon 9 of USA. This will create the economic opportunity of Thailand and expand the competency of the company to provide telecommunication services as well as respond to the customer demand within the servicing area.

About THAICOM 8

THAICOM 8 will have a total of 24 Ku-Band transponders, covering Thailand, South Asia and Africa. THAICOM 8 will serve customers' needs for increased Ku-band capacity and also strengthen THAICOM's Hot Bird platform at 78.5 Degrees East. Orbital Sciences Corporation will be the manufacturer of the satellite and Space Exploration Technologies Corporation (SPACE X) will be the launcher of the satellite.
