"Market price of the Company's ordinary shares" means the weighted average of the market price of the Company's ordinary shares traded on the SET during the 7 consecutive business days (days on which the Company's ordinary shares are traded on the SET) prior to the Calculation Date. Weighted average of the market price of the Company's ordinary shares means the total trading value of the Company's ordinary shares divided by the total number of the Company's ordinary shares traded on the SET.

"Calculation Date" means the first day on which the purchasers of ordinary shares are not entitled to subscribe any of the newly issued convertible securities in case of offer to the existing shareholders (the first day on which the SET posts the XR sign) and/or the first day on which the newly issued convertible securities are offered to any person to subscribe ordinary shares as the case may be.

- 4.4.4 In case where the Company pays out all or parts of its dividends in the form of its ordinary shares to its shareholders, the adjustment of the Exercise Price and the Exercise Ratio shall be immediately effective from the first day on which the purchasers of the Company's shares are not entitled to such stock dividends (the first day on which the SET posts the XD sign).

Exercise Price shall be adjusted in accordance with the following formula;

$$\text{Price 1} = \frac{\text{Price 0} \times (A)}{(A + B)}$$

Exercise Ratio shall be adjusted in accordance with the following formula;

$$\text{Ratio 1} = \frac{\text{Ratio 0} \times (A + B)}{A}$$

Where:

Price 1	=	new Exercise Price after the change
Price 0	=	old Exercise Price before the change
Ratio 1	=	new Exercise Ratio after the change
Ratio 0	=	old Exercise Ratio before the change
A	=	the number of fully paid ordinary shares as at the date before the closing of share register book date to determine the entitlement of stock dividends
B	=	the number of newly issued shares as stock dividends

- 4.4.5 In case where the Company pays out dividend more than 120% of its net profits after tax in any accounting period during the term of the Warrants, the adjustment of the Exercise Price and the Exercise Ratio shall be immediately effective from the first day on which the purchasers of the Company's shares are not entitled to the dividends (the first day on which the SET posts the XD sign).

The dividend payout ratio paid to shareholders is calculated by dividing all actual dividends paid for each accounting period by the net profits after tax of the same period. The actual dividends paid shall include the interim dividend paid during such accounting period.

For the calculation of adjustment to the Exercise Price and the Exercise Ratio, the Company shall include only the actual dividend paid to the shareholders in the same accounting period.

In the case that the Company makes the interim dividend payment and the Company is not required to adjust the rights of the Warrant holders as the dividend payout ratio is lower than 120%, however, if the Company subsequently pays another dividend, the Company shall include the interim dividend paid earlier in the same accounting period to consider the adjustment of rights of the Warrants.

In the event that the Company already calculated the adjustment to Exercise Price and the Exercise Ratio from the interim dividend in any accounting period and later pays another dividend in the same accounting period, the earlier interim dividend shall not be included again in the adjustment as the Warrant holders have been compensated by the adjustment of rights resulting from the payment of interim dividend.

"Market price of the Company's ordinary shares" means the weighted average of the market price of all of the Company's ordinary shares traded on the SET during the 7 consecutive business days (days on which the Company's ordinary shares are traded on the SET) before the Calculation Date. Weighted average of the market price of the Company's ordinary shares means the total trading value of the Company's ordinary shares divided by the total number of the Company's ordinary shares traded on the SET.

"Calculation Date" is the first day on which the purchasers of ordinary shares are not entitled to the dividends (the first day on which the SET posts the XD sign).

Exercise Price shall be adjusted in accordance with the following formula;

$$\text{Price 1} = \frac{\text{Price 0} \times [\text{MP} - (\text{D} - \text{R})]}{\text{MP}}$$

Exercise Ratio shall be adjusted in accordance with the following formula;

$$\text{Ratio 1} = \frac{\text{Ratio 0} \times (\text{MP})}{[\text{MP} - (\text{D} - \text{R})]}$$

Where:

Price 1	=	new Exercise Price after the change
Price 0	=	old Exercise Price before the change
Ratio 1	=	new Exercise Ratio after the change
Ratio 0	=	old Exercise Ratio before the change
MP	=	the Market price of the Company's shares
D	=	actual dividends per share paid to the shareholders
R	=	dividends per share paid, by taking into the calculation the net profit after tax at the rate of 120% and the total number of shares with entitlements to dividends.

- 4.4.6 In case that there is any event which causes the Warrant holder to lose his/her right and benefit and such event is not stipulated under Clauses 4.4.1 to 4.4.5, the Company shall determine the adjustment to the Exercise Price and/or the Exercise Ratio without undermining the rights of the Warrant holder. Such consideration by the Company shall be deemed final and shall be notified to the SEC Office within 15 days from the date on which the event causing the adjustment of rights occurs.
- 4.4.7 The calculation of the adjustment to the Exercise Price and the Exercise Ratio in accordance with Clauses 4.4.1 through 4.4.6 are independent with each other and shall be calculated in order compared to the market price of the Company's ordinary shares. In cases where these events simultaneously occur, the calculation shall be conducted in the ascending order from 4.4.1  $\Rightarrow$  4.4.5  $\Rightarrow$  4.4.4  $\Rightarrow$  4.4.2  $\Rightarrow$  4.4.3  $\Rightarrow$  4.4.6 which the decimals for the Exercise Price shall be maintained at 3 decimals and the decimals for Exercise Ratio shall be maintained at 5 decimals.
- 4.4.8 The calculation of the adjustment to the Exercise Price and the Exercise Ratio in accordance with Clauses 4.4.1 through 4.4.6 shall not cause the increase of the Exercise Price and/or decrease of the Exercise Ratio, except in the case of the share consolidation and the new Exercise Price is used after the adjustment (in 3 decimals) multiplying by the number of ordinary shares (The number of ordinary shares shall be calculated from the new Exercise Ratio multiplied by the number of Warrants stated under the notification of intention to exercise the right. If such calculation results in a fraction of share, such fraction shall be cancelled.) If the money calculated from the exercise is a fraction of Baht, such fraction shall be cancelled. If the adjustment results in the new Exercise Price being lower than the par value of the Company's ordinary shares, the par value of the Company's ordinary shares shall be used as the new Exercise Price. The Exercise Ratio calculated from Clauses 4.4.1 to 4.4.6 shall be used as the new Exercise Ratio.
- 4.4.9 In case of the adjustment of the Exercise Price and/or the Exercise Ratio as mentioned in Clauses 4.4.1 through 4.4.6, the Company shall notify to the Warrant holders the results of the adjustment including the methods of calculation, reasons for the adjustment to the SEC Office and the Stock Exchange of Thailand in order to notify the new Exercise Price, the new Exercise Ratio, and the effective date of the new Exercise Price and the new Exercise Ratio. The Company shall inform the details of the adjustment to the Exercise Price and/or the Exercise Ratio to the Warrant holders via the disclosure system of the Stock Exchange of Thailand and shall post an announcement at the Company's office within 15 days from the date on which such adjustment to the Exercise Price and the Exercise Ratio becomes in effect.

#### **4.5 Status of the Warrants during the notification of intention to exercise**

The status of the Warrants while notifying the intention to exercise shall be equivalent to and have the same rights as the Warrants that have not been notified the intention to exercise. In the event where the Company has adjusted the Exercise Price and/or the Exercise Ratio pursuant to Clause 4.4 during the period of notifying intention to exercise or while the Company has not yet registered the ordinary shares derived from the exercise of Warrants with the Ministry of Commerce, such adjustment to the Exercise Price and/or the Exercise Ratio shall apply to the Warrants of which the notification to exercise has been

submitted and the Company has not yet registered with the Ministry of Commerce in order to prevent the rights of the Warrant holders who have exercised their rights from being impaired.

#### **4.6 Status of the new shares derived from the exercise of the Warrants**

The new shares derived from the exercise of the Warrants shall have the same rights and benefits as the existing issued and fully paid-up shares. Any entitlement from being the ordinary shareholder from the exercise of right pursuant to the Warrants shall commence from the date on which the Ministry of Commerce accepts the registration of new shareholders as appeared on the list of new ordinary shareholders from the exercise of rights of the Warrant holders. In addition, the Company shall register the ordinary shares derived from the exercise of the Warrants to be listed on the Stock Exchange of Thailand within 30 days from each exercise date.

#### **4.7 Compensation in cases where the Company cannot arrange sufficient shares to accommodate the exercise of the Warrants.**

The Company shall compensate only to the Warrant holder who notify his/her intention to exercise within each exercise period and the Company cannot provide shares to fully accommodate the exercise of his/her Warrants. The compensation shall be calculated in the following formula;

$$\text{Compensation per 1 unit of Warrants} = B \times (MP - EP)$$

Where:

B	=	the number of shares which cannot be provided and/or increased in accordance with the Exercise Ratio that increases per 1 unit.
MP	=	the weighted average price of the Company's ordinary shares on each exercise date for which the Warrant holder notify his/her intention to exercise
EP	=	the Exercise Price or the Exercise Price which has been adjusted

The list of eligible employees and the number of Warrants, including the adjustment of the number of Warrants which has been allocated to each employee shall be determined by the Company's Board of Directors or the authorized person of the Company's Board of Directors (the adjustment shall not result in any employee being entitled to more than 5 percent of the total number of Warrants being issued and offered). The number of Warrants allocated to the respective employees will be varied based on scope of work, duties, responsibilities, potential, performance and benefits brought to the Company and/or its subsidiaries according to the Company's criteria.

### 5.3 In case the Rights of the Warrants have not been fully exercised

If the Warrant holders do not exercise or do not fully exercise the rights to purchase ordinary shares pursuant to the Warrants and the term of the Warrants has expired, it shall be deemed that the Employee waives their rights pursuant to such un-exercised Warrants. In this respect, such Employee shall not be entitled to claim any compensation from the Company.

## 7. Effects upon Shareholders from Issuance of Warrants and Offer to Employees of the Company

### 7.1 Price Dilution Effect due to the Exercise of Rights to Purchase Shares by Employees

Exercise Price	=	The weighted average market price of the Company's share traded on the Stock Exchange of Thailand during the 7 consecutive business days prior to the date on which the Board of Directors resolves to propose the shareholders' meeting to approve the offer of the Reserved Shares by the Company.
Market Price	=	The weighted average market price of the Company's share traded on the Stock Exchange of Thailand during the 7 consecutive business days prior to the date on which the Board of Directors resolves to propose the shareholders' meeting to approve the offer of the Reserved Shares by the Company.

The Exercise Price of the Warrants allocated to Employees = Baht 37.626 per share, which is the Market Price. Thus, the issuance and offer of Warrants will not create price dilution.

**7.2 Effects upon Existing Shareholders due to Dilution of Ownership or Control Dilution in case Warrants are exercised by All Employees as Calculated from the Current Paid-up Capital**

Number of the total paid-up shares	=	1,095,937,540 shares (at a par value of Baht 5 each)
Number of shares or Reserved Shares for this offer	=	Not exceeding 1,085,300 shares (at a par value of Baht 5 each)
Control Dilution	=	$\frac{\text{Number of Shares reserved for this offer}}{\text{Number of paid-up shares} + \text{Number of shares reserved for this offer}}$
Control Dilution	=	$\frac{1,085,300}{1,095,937,540 + 1,085,300}$
	=	0.10 percent

In case that all Warrants allocated to the Employees in the number of not exceeding 1,085,300 units have been exercised, the control of the existing shareholders of the Company shall be diluted by 0.10 percent of the existing voting rights, where the rights of the existing shareholders after the exercise shall be equivalent to 99.90 percent.

**8. Rights of Shareholders in Opposing the Offer of Warrants**

Pursuant to the Notification of the Capital Market Supervisory Board No. *TorJor. 32/2551 Re: Issuance and Offering of Securities to Directors or Employees dated December 15, 2008 (as amended)*, the rights of shareholders in opposing the offer of Warrants are as follows:
