Thaicom connects electrical engineering community

Promoting electromagnetics and telecommunications research in Thailand

Thaicom Public Company Limited, led by AVP-Corporate Communication, **Thitipa Laxanaphisuth** (third from right), partners with ECTI Thailand, led by Prof. Dr. Monai Krairiksh, acting president of King Mongkut's Institute of Technology Ladkrabang and chair of iEMAT, to hold the 2016 iEMAT Summer EM School. This is the third year in a row that experts and students have gathered for the iEMAT Summer EM School to learn and share ideas in the areas of electrical engineering, electromagnetics (EM), telecommunications, and information technology. By bringing the EM community together to connect and exchange ideas on the latest research, the hosting organizations create shared value with society, strengthening Thailand by strengthening education and improving access to communications technology. Experienced engineers from Thaicom delivered a lecture on "Experience in Satellite Integration and Test" and hosted a career booth which was a popular stop for students from a number of universities. The event was held recently at King Mongkut's University of Technology Thonburi.

###

Sustainable Development

In its 25th year, Thaicom is approaching sustainable development holistically to improve quality of life for all stakeholders and continue to grow as a leading Asian satellite operator. Thaicom aims to create value alongside society by providing connectivity, innovation, and responsible services under the guiding principles of corporate governance. Such efforts not only cover the quality satellite equipment, technology, and signal, but also extend to the development of expert personnel. In addition to preparing to support the growth of the Digital Economy, Thaicom looks after society and the environment, particularly in the area of education. Believing that a strong education system is the foundation for a strong nation, Thaicom leverages satellite technology to deliver distance learning to communities across Thailand through "Thai Kids Thaicom". Thaicom also works to provide reliable communications services following disasters to ensure aid and recovery efforts can effectively reach disaster victims in areas throughout Asia-Pacific.
