

Thaicom receives ISO 9001:2008 and ISO 22301:2012 certificates 2 years in a row

Nonthaburi, 3 April, 2017 - Thaicom PLC, a leading Asian satellite operator, received certificates for ISO 9001:2008 Quality Management System and ISO 22301:2012 Business Continuity Management System (BCMS) for the second consecutive year. These certifications recognize Thaicom's effective management of quality and of potential business disruption risk through preventative measures and contingency plans.

Mr. Paiboon Panuwattanawong, Chief Executive Officer of Thaicom PLC, commented: "Thaicom's mission, as a leading satellite operator, is to provide communications networks—a mission which involves and affects a lot of people. Therefore, maintaining business continuity and quality management standards for our operations is of highest priority. These 2 certifications reinforce the company's strength and reflect Thaicom's commitment to achieving the organization's full potential in carrying out its satellite communications mission. Thaicom will keep working to go above and beyond standards and will continue to deliver on our commitment to provide the continuous network connectivity needed to support economic growth that is both socially and environmentally sustainable."

About THAICOM

THAICOM Public Company Limited, a leading Asian satellite operator, was established in 1991. The Company was the first to launch a broadband satellite in the world, and is a leader in developing integrated solutions for satellite broadband and broadcast services. The Company's engineering teams provide leading-edge innovative solutions for satellite-based telecommunications services. Since its establishment the Company has launched eight satellites, with five satellites in operation: THAICOM 4 (IPSTAR) provides a variety of broadband and data services, including cellular backhaul, mobility, government USO support, content delivery, business continuity and emergency services in thirteen countries in Asia Pacific.

THAICOM 6 is to expand the Company's broadcast carrying capacity in SE Asia and Africa (by the name "AFRICOM 1") and is collocated with THAICOM 5 and THAICOM 8 at 78.5 degrees East. THAICOM 7 was launched in September 2014 to provide media & data services for Asia's and Australasia's entertainment and telecom industries at 120 degrees East. THAICOM 8 was launched in May 2016 to expand Thaicom's servicing capacity and footprint in the region. Thaicom is traded on the Stock Exchange of Thailand (SET) under the trade symbol "THCOM".
