REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION BY THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

TO THE BOARD OF DIRECTORS THAICOM PUBLIC COMPANY LIMITED

We have reviewed the consolidated statement of financial position of Thaicom Public Company Limited and its subsidiaries and the separate statement of financial position of Thaicom Public Company Limited as at June 30, 2020, and the related consolidated and separate statements of profit or loss, profit or loss and other comprehensive income, for the three-month and six-month periods ended June 30, 2020 and the related consolidated and separate statements of changes in equity and cash flows for the six-month period ended June 30, 2020, and the condensed notes to the financial statements. The Company's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Thai Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the aforementioned interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting".

Coronavirus Disease 2019 Pandemic

The Coronavirus disease 2019 ("COVID-19") pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. Nevertheless, the Group's management will continue to monitor the ongoing development and regularly assess the financial impact in respect of valuation of assets, provisions and contingent liabilities.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

2. Basis of preparation of the interim financial statements

2.1 Statement of compliance

The interim financial statements are prepared on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 "Interim Financial Reporting"; guidelines promulgated by the Federation of Accounting Professions (FAP); and applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements are prepared to provide an update on the financial statements for the year ended 31 December 2019. They do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and its subsidiaries for the year ended 31 December 2019.

The consolidated and separate statements of financial position as at 31 December 2019, presented herein for comparison, have been derived from the consolidated and separate financial statements for the year then ended which have been audited.

The accounting policies and methods of computation applied in these interim financial statements are consistent with those applied in the financial statements for the year ended 31 December 2019 except that the Group has adopted all the new and revised TFRS that are effective for annual period beginning on or after 1 January 2020. The change in accounting policies are presented in Note 2.4.

During the period, the Group has adopted the revised and new financial reporting standards and guidelines on accounting issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standards which become effective for fiscal year and involve changes to key principles are summarized below:

Group of Financial Instruments Standards

Thai Accounting Standards ("TAS")

TAS 32 Financial Instruments: Presentation

Thai Financial Reporting Standards ("TFRS")

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

Thai Financial Reporting Standard Interpretations ("TFRIC")

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

These group of Standards make stipulations relating to the classification of financial instruments and their measurement at fair value or amortized cost; taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model, the calculation of impairment using the expected credit loss method, and the concept of hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. These Standards will supersede the Standards and Interpretations relating to the financial instruments upon its effective date.

The Group has applied TFRS 9 in accordance with the transition provisions set out in TFRS 9.

(a) Classification and measurement of financial assets and financial liabilities

The date of initial application (i.e. the date on which the Group has assessed its existing financial assets and financial liabilities in terms of the requirements of TFRS 9) is 1 January 2020. Accordingly, the Group has applied the requirements of TFRS 9 to instruments that continue to be recognized as at 1 January 2020 and has not applied the requirements to instruments that have already been derecognized as at 1 January 2020. Comparative amounts in relation to instruments that continue to be recognized as at 1 January 2020 have not been restated.

All recognized financial assets that are within the scope of TFRS 9 are required to be measured subsequently at amortized cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets, specifically:

- Debt instruments that are held within a business model whose objective is to collect the
 contractual cash flows, and that have contractual cash flows that are solely payments of
 principal and interest on the principal amount outstanding, are measured subsequently at
 amortized cost;
- Debt instruments that are held within a business model whose objective is both to collect the contractual cash flows and to sell the debt instruments, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured subsequently at fair value through other comprehensive income (FVTOCI);
- All other debt investments and equity investments are measured subsequently at fair value through profit or loss (FVTPL).

A significant change introduced by TFRS 9 in the classification and measurement of financial liabilities relates to the accounting for changes in the fair value of a financial liability designated as at FVTPL attributable to changes in the credit risk of the issuer.

Below tabulates the change in classification of the Group's financial assets and financial liabilities upon application of TFRS 9.

Besides, other financial assets and liabilities can be classified as follow:

- Cash and cash equivalents, trade receivables, other current receivables, loans to related parties are classified as financial assets measured at amortized cost.
- Trade payables, other current payables, long-term borrowings from financial institutions, debentures and lease liabilities are classified as financial liabilities measure at amortized cost.

(b) Impairment of financial assets

In relation to the impairment of financial assets, TFRS 9 requires an expected credit loss model. The expected credit loss model requires the Group to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognized.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

In particular, TFRS 9 requires the Group to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses (ECL) if the credit risk on that financial instrument has increased significantly since initial recognition, or if the financial instrument is a purchased or originated credit-impaired financial asset. However, if the credit risk on a financial instrument has not increased significantly since initial recognition (except for a purchased or originated credit-impaired financial asset), the Group is required to measure the loss allowance for that financial instrument at an amount equal to 12-month ECL. TFRS 9 also requires a simplified approach for measuring the loss allowance at an amount equal to lifetime ECL for trade receivables in certain circumstances.

(c) General hedge accounting

The general hedge accounting requirements the three types of hedge accounting. In addition, the effectiveness test has been assessed. Disclosure requirements about the Group's risk management activities have also been introduced.

Thai Financial Reporting Standard No. 16 "Leases" ("TFRS 16")

TFRS 16 provides a comprehensive model for the identification if lease arrangements and their treatment in the financial statements of both lessees and lessors. This TFRS superseded the following lease Standards and Interpretations upon its effective date, which are Thai Accounting Standard No.17 "Leases", Thai Accounting Standard Interpretation No.15 "Operating Lease - Incentives", Thai Accounting Standard Interpretation No.27 "Evaluating the Substance of Transactions involving the Legal Form of a Lease" and Thai Financial Reporting Standard Interpretation No.4 "Determining whether on Arrangement contains a Lease".

For lessee accounting, there are significant changes to lease accounting in this TFRS by removing the distinction between operating and finance leases under TAS 17 and requiring a lessee to recognize a right-of-use asset and a lease liability at commencement for all leases, except for short-term-leases and leases of low value assets. However, the lessor accounting treatment continues to require a lessor to classify a lease either as an operating lease or a finance lease, using the same concept as TAS 17.

Financial impact of the initial application of TFRS 16

The Group recognises the lease liabilities relating to the previously classified as operating lease in accordance with Thai Accounting Standards No.17 "Leases". Leasehold Rights and measurement rights amount equal to liabilities under lease adjusted by the amount of advance payment or accrued payment related to the lease agreement recognised in the statement of financial position before the date of the initial application. Liabilities under lease contracts are measured at the present value of the remaining lease payments, discounted by the Group's additional borrowing interest rates. The weighted average interest rate of the additional hires of the lessee applied to the lease liabilities recognised in the statement of financial position as at 1 January 2020 is 3.75% - 5.50% per annum.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

The following table shows the operating lease commitments disclosed in accordance with Thai Accounting Standard No. 17 "Leases" as at 31 December 2019, with a discounted interest rate on additional borrowings as at the initial application and lease liabilities agreements are recognised in the statement of financial position on the initial application.

The date that the initial application financial reporting standard No. 16 "Lease" is 1 January 2020.

In addition, the Federation of Accounting Professions has announced two Accounting Treatment Guidances, which have been announced in the Royal Gazette on 22 April 2020, detail as follows:

Accounting Treatment Guidance on "The temporary relief measures for entities supporting their debtors who effected from the situations that affected Thailand's economy"

The objective of this accounting treatment guidance is to grant the temporary relief measures for entities helping their debtors who effected from the situations that affected Thailand's economy with the helping period during 1 January 2020 to 31 December 2021 or until there are any changes from the Bank of Thailand, which require the compliance for such changes. The entities who support their debtors and elect to apply this accounting treatment guidance should be comply with all relief measures specified in this accounting treatment guidance.

The Group has not adopted such accounting treatment guidance in the preparation of the interim financial statements for the three-month and six-month periods ended 30 June 2020.

Accounting Treatment Guidance on "The temporary relief measures for additional accounting alternatives to alleviate the impacts from COVID-19 outbreak"

This accounting treatment guidance is the option for all entities applying Financial Reporting Standards for Publicly Accountable Entities. Since the preparation of financial statements during the period, which COVID-19 situation still be highly uncertainty as at the end of reporting period may cause the entities' management to use the critical judgment in the estimation or the measurement and recognition of accounting transactions. Objective of this accounting treatment guidance is to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation. The entities can apply this accounting treatment guidance for the preparation of financial statements with the reporting period ending within the period from 1 January 2020 to 31 December 2020.

The Group has not adopted such accounting treatment guidance in the preparation of the interim financial statements for the three-month and six-month periods ended 30 June 2020.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

2.2 Functional and presentation currency

The interim financial statements are prepared and presented in Thai Baht, which is the Group's functional currency. All financial information presented in Thai Baht has been rounded to the nearest thousand in the notes to financial statements unless otherwise stated.

2.3 Judgements and estimates

The preparation of interim financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2019.

2.4 Significant Accounting Policies

The interim financial statements have been prepared based on the basis, accounting policies and method of computation consistent with those used in the financial statements for the year ended 31 December 2019, except the adoption of new and revised Thai Financial Reporting Standards as described in Note 2. Accounting policies which significantly changed are as follows:

Leases

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Company Group recognises a right-of-use asset and corresponding lease liability with respect to all lease arrangements in which it is the lease. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under TAS 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company Group expects to exercise a purchase option, the related right-of-use is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group as lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and the sub-lease as two separate contracts. The sub-lease is classified as a finance lease or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

When a contract includes both lease and non-lease components, the Group applies TFRS 15 to allocate the consideration under the contract to each component.

Financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

All recognized financial assets are measured subsequently in their entirely at either amortized cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortized cost;

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

Debt instruments that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI);

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL.

Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on investments in debt instruments that are measured at amortized cost or at FVTOCI, and trade receivables. The amount of expect credit losses is updated at each reporting period date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognizes lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Hedge accounting

Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, they are remeasured at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

Significant movements in investments in subsidiaries and joint ventures for the six-month period ended 30 June 2020 were as follows:

Joint ventures

Dividend payment of Lao Telecommunications Company Limited ("LTC")

At the Annual General Meeting of the shareholders of LTC held on 3 March 2020, the shareholders approved the appropriation of dividend from 2019 operation of USD 18 million.

Registration of Lao Mobile Money Sole Company Limited

On 22 April 2020, LTC established Lao Mobile Money Sole Company Limited with registered capital of KIP 10,000 million, at par value KIP 10,000 per share, which fully paid-up share capital. LTC holds 100% stake in share capital.

Registration of Nation Space and Technology Co., Ltd.

On 25 June 2020, CAT Telecom Public Company Limited ("CAT") and Thaicom Public Company Limited ("THCOM") established a new joint venture company to co-operate the company under the name of Nation Space and Technology Co., Ltd. ("NSAT") to provide service of communication satellite and the service relating to the satellite business. Its registered capital is Baht 10 million at par value Baht 10 per share, which fully paid-up share capital. The share proportion between THCOM and CAT is 75% and 25% shareholding in share capital, respectively. CAT shall have the right to invest in new share subscription in NSAT at indicated price under the agreement between shareholders that would cause its shareholding proportion to be up to 49% of shares within 6 years after NSAT's registration date.

Commitments

According to the joint venture agreement between the Group and the Government of the Lao People's Democratic Republic, the Group must transfer all of LTC's shares to the Government of the Lao People's Democratic Republic, without any charges or compensation, on the expiration date of the joint venture agreement in 2046 (Note 15.2).

Another service fee of USD 71.12 million depends on certain conditions of the agreement if the Company is allowed to operate the current concession satellites after the concession ends.

On 17 April 2020, the Company and the contract party mutually agreed to enter into a Termination Agreement to terminate the above said Services Agreement, resulting both parties were no longer held any contractual responsibilities.

The result from the above said Termination Agreement, the Company recorded the write-off of advance payment amounting to USD 3 million or approximately Baht 98 million in March 2020. Consequently, in May 2020, the Company was proceeded the compensation from insurer (this insurance was part of arrangement under the Services Agreement) amounting to USD 14 million or approximately Baht 451 million. The net amount after deduction of the write-off of advance payment was Baht 353 million which was presented as compensation income under insurance policy abiding to Services Agreement for life-extension service of satellites (see Note 11).

Assessment for income tax in India

The Tax Authority in India ('the Tax Authority'), has held that the payments received by the Company for providing Transponder Services ('TPS') to its Indian Customers and non-resident customers targeting Indian audience ('the Customer') was Royalty under both the Indian Income Tax Act ('the Act'), and the Double Taxation Avoidance Agreement between Thailand and India ('the DTAA') and subject to withholding tax at the rate of 15% on gross basis. But the Company considered income from Transponder Services to be business income, and as the Company does not have permanent establishment in India, such income is not taxable in India.

The Tax Authority still insisted on its consideration and raised the tax demand including surcharge, education tax and interest aggregating to INR 859.4 million (approximately Baht 352.3 million) against the said payment received by it from the customers and also levied penalty of INR 566.1 million (approximately Baht 232.1 million) for the Assessment Year ('AY') 1998-1999 to 2012-2013 (1 April 1997 to 30 March 2012).

So far, the Company had received Withholding Tax Certificates ('WTC') from its customers until Assessment Year ('AY') 2012-2013 net amounting to INR 593.8 million (approximately Baht 243.5 million), in which part of the amount is substituted and paid by the customer on behalf of the Company and used it as deposit. The Company had also deposited INR 480.4 million (approximately Baht 197.0 million). The deposit is presented as other non-current assets in the statements of financial position.

On 4 March 2011, Income Tax Appellate Tribunal (ITAT) gave its decision that the Company's income from transponder services in India was not a royalty and, as the Company has no permanent establishment in India, such income was not taxable in India.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

As the consequence, the Company does not have to pay interest and penalty imposed by the Revenue Department of India, and ITAT also decided that the demand for penalty for the assessment year 1998-1999, 1999-2000, 2000-2001, 2001-2002 and 2002-2003 made by the Revenue Department of India against the Company be cancelled. The Revenue Department of India did not appeal against the ITAT's decision on penalty for the said assessment years to the High Court of Delhi and the ITAT's decision on penalty was final. On 30 December 2011, the Tax authority notified the partial return of deposit placed by the Company against the penalty for the Assessment Year ('AY') 1998-1999 to 2001-2002 and interest, aggregating to INR 162.4 million (approximately Baht 66.6 million).

Further to ITAT decision as stated in the preceding paragraphs, the Company is in the process of requesting the refund of the remaining deposit and withholding tax from the Tax Authority. Upon the final decision of the Supreme Court and the receipt of refund, the Company will forward the Customer the amount they substituted on behalf of the Company.

On 28 September 2011, the Tax Authority has filed an appeal against the decision of High Court on 17 February 2011 which decided that the Company's income from transponder services in India was not a royalty, to the Supreme Court. At the moment, this issue is still under the consideration of the Supreme Court.

The Supreme Court of India issued a letter dated 9 November 2011, to inform the agent of the Company's tax consultant of the appeal. Currently, the matter is in process, awaiting the Supreme Court of India's consideration.

17. Other events

- 17.1 According to the judgment of the Supreme Court, Criminal Division for Persons Holding Political Positions rendered on 26 February 2010, concerns the Company and its affiliated companies in many aspects. The Company is of the opinion that the consequence of the judgment is limited to the holding that some property of the person holding political position was improperly acquired by an abuse of power while being in a political position. The judgment does not contain any order indicating that the Company or its affiliated companies shall take any actions as the Company is not involved to the case. The Company and its affiliated companies have been operating to the best of its ability in accordance with the law and the agreements and in good faith. The Company and its affiliated companies have every right available under the law and agreements to provide the facts to prove its innocence and good faith in any proceeding which may be initiated by the relevant government agencies in accordance with the law and justice.
- 17.2 On 19 April 2007, Mr. Supong Limthanakul brought legal actions against the National Broadcasting and Telecommunications Commission ("NBTC"), the office of the NBTC (previously named the National Telecommunications Commission) and the Ministry of Digital Economy and Society ("MDE") (previously named the Ministry of Information and Communication Technology ("MICT")) in the Central Administrative Court ("CAC") on the ground that the three state agencies neglected to perform their duties in overseeing whether the Company has been carrying on its telecommunications business lawfully after the sale of Shin Corporation Public Company Limited's shares to the new shareholder.

CAC issued an order dated 8 April 2009 making the Company the fourth respondent in order to allow the Company to file the Reply to the petitioner's claim including evidence, documentary or otherwise to CAC and the Company filed the Reply and supporting evidence in July 2009. On 10 June 2011, CAC has dismissed the verdict.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

On 8 July 2011, Mr. Supong Limthanakul has filed an appeal with the Supreme Administrative Court ("SAC"). The case is under consideration by SAC. On 23 September 2011, the Company has filed an argument against appeal with the Supreme Administrative Court ("SAC").

On 28 December 2018, the Supreme Administrative Court issued an order that the ending date of the fact inquiry shall be held on 12 February 2019 which both plaintiff and defendant are required to submit the additional documents (if any) to the Court within the said period. After that, the Court shall further determine the first hearing date.

On 30 June 2020, the Supreme Administrative Court issued an order that the date of 25 August 2020 shall be determined as the first hearing date.

The Company is of the opinion that it will not be adversely affected in any way as the actions were brought against NBTC, office of the NBTC and MDE for neglecting to perform their duties and will not constitute a cause for terminating the operating agreement as the Company has fully complied with the terms and conditions of the operating agreement.

17.3 A subsidiary of the company was being sued and claimed for the damages of satellite equipment in Australia since 2011. On 22 December 2016, the Court gave its judgement that the subsidiary shall compensate for damages of 5.3 million Australian dollars with interest which the impact of such expense was recorded in the financial statements for the year 2016. On 17 March 2017, the subsidiary has filed an argument against appeal to Court.

On 16 February 2018, the Court ordered the appeal be dismissed which a subsidiary paid an interest and a portion of expense after the Court's decision in the amount of 1.8 million Australian dollars. Nonetheless, the additional legal costs which a subsidiary shall compensate the plaintiff are being aggregated for the certain amount by the Court. Accordingly, a subsidiary compensated the legal costs including interest to the plaintiff in the amount of AUD 1.7 million which a subsidiary had completely paid to the plaintiff in April 2020.

17.4 The Company and its partner have a different interpretation of certain clauses of the cooperation agreement. As a result, the Company and such company have submitted the case to the arbitrator to consider and find a solution for such different view. All witnesses from both parties have been already cross-examined. During the year 2018, the arbitrator has already considered that the interpretation of certain clauses of the company is correct, and this decision is final.

Nonetheless, the said partner still has a different interpretation towards the Company's with execution considering breach of the cooperation agreement. The Company, therefore, had to submit the case to the arbitrator to re-consider. At present, it is being on the arbitration proceeding and the trial appointment date shall be in January 2021.

17.5 Dispute over THAICOM 7 and THAICOM 8 satellites under Operating Agreement on Domestic Communication Satellite

On 5 October 2017, the Company received a letter from the Ministry of Digital Economy and Society (the "Ministry") stating that Thaicom 7 and Thaicom 8 satellites were the satellites under the Operating Agreement on Domestic Communication Satellite dated 11 September 1991 between Intouch Holdings Public Company Limited ("INTOUCH") and the Ministry (formerly known as the Ministry of Information and Communication Technology (MICT)) (the "Agreement"), which INTOUCH established the Company to operate works under the Agreement. In this regard, the letter from the Ministry stated a request for the full compliance with the Agreement on an urgent basis; e.g. transfer of ownership and delivery of assets, procurement of the backup satellite(s), payment of overdue revenue sharing, and property insurance.

Notes to the interim financial statements

For the three-month and the six-month periods ended 30 June 2020 (Unaudited)

The Extra-Ordinary Board of Directors' Meetings of the Company on 24 October 2017, respectively, considered such letter and consulted with legal advisor and then opined that Thaicom 7 and Thaicom 8 satellites were not the satellites under the Agreement as the procedures of Thaicom 7 and Thaicom 8 satellites fell under the scope of license received from the National Broadcasting and Telecommunications Commission. Moreover, the Company has fully complied with the terms and conditions of the Agreement and has not proceeded with any operations against or violating the Agreement. Therefore, the Company had a different opinion from the Ministry on Thaicom 7 and Thaicom 8 satellites. Accordingly, the Meetings resolved that the Company submit to an arbitrator the dispute, resulting from the terms of and compliance with the Agreement and that the parties thereto have not been able to resolve it, for further settlement. This is in accordance with Clause 45.1 of the Agreement and the Company has submitted the dispute to the Arbitration Institute on 25 October 2017, as appeared in the Black Case No. 97/2560.

The case is in the arbitration process. The Company does not have any duties to comply with any of the foregoing requests until the case is final. At present, the arbitration process is expected to commence in September 2020.

However, in August 2019, the Ministry filed a petition to the CAC on the arbitration jurisdiction over the Black Case No. 97/2560, and requesting the CAC's order to suspend the arbitration process. On 24 October 2019, the CAC had an order refusing to suspend the arbitration process. The Ministry and the Company have already submitted the required documents to the CAC, however, the CAC has not issued any order or determine the appointment date.
